JUVENIX IR™

Omega-3 Essential Fatty Acids the Way Nature Intended

- Made from Fish Oil
- Natural, Unadulterated State
- Contains key antioxidants
- Patented Flavored Capsule Delivery
- Superior Quality

Not all fatty acids are created equal. In fact, scientific studies prove the superiority of EPA and DHA fatty acids for the maintenance and restoration of health and the prevention of illnesses.

Made from Fish Oil

Juvenix IR contains EPA and DHA - essential fatty acids that must be obtained from the diet. Without these fundamental nutrients, proper health is impossible and illness is inevitable.

Natural, Unadulterated State

Juvenix IR delivers Omega-3 fatty acids in its pure triglyceride form and in its natural EPA/DHA ratio... the way nature intended.

Contains key antioxidants

Juvenix IR contains d-alpha tocopherol – the most potent antioxidant form of Vitamin E.

Patented Flavored Capsule Delivery

Our highly palatable chicken flavored capsules are the most effective vehicle for nutrient supplementation – minimizing the amount of binding excipients required while reducing gastrointestinal irritation. Our capsules are made of certified Kosher and Halal BSE-free natural gelatin.

Superior Quality

Our products are manufactured in an FDA-approved facility under strict cGMP (current Good Manufacturing Practice) pharmaceutical standards with full stability testing.

PetVitamins' Juvenix IR is a perfectly balanced antioxidant compound. Enhanced with Omega-3 to support the optimum absorption of vital antioxidants, Juvenix IR is a quintessential addition to canine and feline diets.
